DETAILED ACTION

Claim Rejections - 35 USC § 102

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. Claims 1-12 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Oriento Kakagu Kogy JP-2-305832, Oriento Kakagu Kogy JP-2841077, Lienhard et al. 4,263,197 or Lienhard et al. 4,527,994, in view of Zwahlen et al. 4,093,584, Riegler et al. 4,094,839, Yeh et al. 4,853,272, Babler et al. 5,075,195 or Faber et al. 5,489,639.
- 3. Applicants' claims are directed a composition. The cited references disclose or make obvious the claimed composition. All properties, including being transparent for the near-infrared spectrum of laser a beam applied in a laser welding having a main wavelength of 800 nm to 1200 nm, are inherent in the composition. The rejections are maintained.

Response to Arguments

4. Applicant's arguments filed 3/18/03 have been fully considered but they are not persuasive. Transparency under certain circumstances is a property of a composition.

All compositions having the same chemical structures will have the same properties.

Whether the cited references mention these properties at all, or whether the inventors of the cited references even know of these properties is completely beside the point. If somebody blended a 1:2 metallic azo complex dye in a thermoplastic resin, before the discovery of lasers, that composition would still anticipate claim 1. There are no claims

Art Unit: 1714

directed to the process of laser welding and applicants have not proven that the compositions disclosed by the cited references are unsuitable for laser welding. All rejections are maintained by the examiner.

Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
